Raou The Sweet

Large red watermelon. It has a rich flavor and tastes sweeter than its sugar content suggests. Making it into a drink brings out the sweetness and aroma of the watermelon, giving it a different flavor from eating it as is.

UEHIRA Farm

We are a 26-year-old farming couple who lovingly grow six varieties of watermelon and two varieties of melon in Nara Prefecture. We apprenticed under a watermelon farmer in Kyushu and are striving to grow the ultimate watermelon while continuing to learn. Uehira Farm's watermelons are making their debut in Tokyo! Please enjoy our special watermelon drink, which will transport you to a watermelon farm with just one sip.
